EDUCATION

Bachelor of Engineering - Computer Engineering

2023-2027

Ajeenkya DY Patil School Of Engineering, Pune University (SPPU)

CGPA: 8.34/10 | Third Year Student

PROJECTS

TaskFlow – AI-Powered Project Management Platform (React, Node.js, Express, MongoDB, Socket.io)

- Built a collaborative project management platform for teams and organizations.
- Enables efficient task assignment, tracking, and project monitoring.
- Provides real-time updates to improve team communication and productivity.
- Incorporates AI-powered assistance for smarter workflow management.
- Streamlines project execution through an intuitive and user-friendly interface.

LegalAI – AI Legal Document Analyzer (React, FastAPI, PostgreSQL, Gemini API, LangChain)

- Developed an AI-powered platform to simplify and analyze complex legal documents.
- Generates concise summaries to help users quickly understand contracts and agreements.
- Identifies important clauses, obligations, deadlines, and potential risks.
- Supports both digital and scanned documents for comprehensive analysis.
- Improves accessibility of legal information for non-technical and non-legal users.

EasyCode – DSA Learning Platform (React, Node.js, MongoDB, Judge0 API)

- Created a coding practice platform focused on Data Structures and Algorithms.
- Offers structured problem-solving experiences for students and developers.
- Tracks user progress and performance across different topics.

FocusFlow – AI Meeting Attention Tracker (Python, OpenCV, MediaPipe, Telegram Bot API)

- Developed an intelligent desktop application for monitoring user attention during meetings.
- Tracks facial and eye movement patterns to determine engagement levels.
- Detects inattentive behavior and generates timely alerts.
- Helps educators, managers, and teams improve participation and focus.
- Provides real-time monitoring with an easy-to-use dashboard.

EXPERIENCE

Ateion (Full Stack Developer Intern)

Jan 2026 - March 2026

- Developed and maintained responsive React frontends and Node.js/Express backend services.
- Collaborated with development teams on agile sprints, system design, and code reviews.
- Managed Git/GitHub workflows and handled Vercel deployment processes.
- Built responsive UIs with Tailwind CSS and optimized mobile responsiveness.
- Participated in testing, bug fixing, and integrating client feedback throughout the SDLC.

TECHNICAL SKILLS

- Programming Languages:** JavaScript, TypeScript, Python, SQL, Dart
- Frontend Development:** React, Vite, Tailwind CSS, HTML5, CSS3
- Backend Development:** Node.js, Express.js, FastAPI, REST APIs
- Databases:** MongoDB, PostgreSQL, SQLite
- AI & ML:** Gemini API, LangChain, OpenCV, MediaPipe, Tesseract OCR
- Tools & Platforms:** Git, GitHub, Docker, Vercel, Postman, Render
- Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming

CERTIFICATION

- Meta Front-End Development
- IBM Backend Development
- Google AI Fundamentals

EXTRACURRICULAR

Sports Head at ACE (ASSOCIATION OF COMPUTER ENGINEERING)

2024-2026

Led department-level sports activities, coordinated college events, and managed team participation and scheduling.
