PROFESSIONAL SUMMARY

Computer Engineering student with hands-on experience in Full Stack Development, Generative AI, and Computer Vision applications. Proficient in React, Node.js, FastAPI, MongoDB, PostgreSQL, and AI-powered systems using Gemini API and LangChain. Passionate about building impactful software solutions, solving real-world problems, and continuously learning new technologies to enhance technical and professional growth.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, Python, SQL
- **Frontend Development:** React, Vite, Tailwind CSS, HTML5, CSS3
- **Backend Development:** Node.js, Express.js, FastAPI, REST APIs
- **Databases:** MongoDB, PostgreSQL
- **AI & ML:** Gemini API, LangChain, Tesseract OCR
- **Tools & Platforms:** Git, GitHub, Docker, Vercel, Postman
- **Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming

EXPERIENCE

Ateion (Full Stack Developer Intern)

Jan 2026 - March 2026

- Developed reusable React components to improve UI consistency and maintainability across applications.
- Built and integrated REST APIs using Node.js and Express.js for backend services and enterprise workflows.
- Collaborated on deployment and version control processes using GitHub and Vercel.
- Assisted in debugging, testing, and optimizing frontend performance to enhance user experience.

PROJECTS

LegalAI – AI Legal Document Analyzer (React, FastAPI, PostgreSQL, Gemini API, LangChain)

- Developed an AI-powered legal document analysis platform for contracts and agreements.
- Implemented automated summarization to generate concise legal insights.
- Built clause extraction functionality to identify obligations, deadlines, and risks.
- Integrated OCR processing for analyzing both scanned and digital documents.

FocusFlow – AI Meeting Attention Tracker (Python, OpenCV, MediaPipe, Telegram Bot API)

- Developed an AI-powered desktop application to monitor user attention during meetings.
- Implemented facial landmark and eye-tracking algorithms using OpenCV and MediaPipe.
- Built real-time inattentiveness detection based on eye movement and head pose analysis.
- Integrated Telegram Bot API to generate automated attention alerts.

TaskFlow – AI-Powered Project Management Platform (React, Node.js, Express, MongoDB, Socket.io)

- Developed a collaborative project management platform for task assignment and tracking.
- Implemented real-time updates using Socket.io for seamless team communication.
- Built role-based task management and project monitoring features.
- Integrated AI-powered assistance for workflow optimization and productivity enhancement.

EasyCode – DSA Learning Platform (React, Node.js, MongoDB, Judge0 API)

- Built a coding practice platform focused on Data Structures and Algorithms.
- Integrated Judge0 API for real-time code compilation and execution.
- Implemented topic-wise problem categorization and progress tracking.
- Developed submission analytics to monitor user performance.

EDUCATION

Bachelor of Engineering - Computer Engineering

2023-2027

Ajeenkya DY Patil School Of Engineering, Pune University (SPPU)

CGPA: 8.34/10

CERTIFICATION

- Meta Front-End Development
- IBM Backend Development
- Google AI Fundamentals

EXTRACURRICULAR

Sports Head at ACE (ASSOCIATION OF COMPUTER ENGINEERING)

2024-2026

Led department-level sports activities, coordinated college events, and managed team participation and scheduling.
